

AGRICULTURAL TRANSPORT BIN

REUSABLE TRANSPORT PACKAGING

USAGE

Plastic reusable transport bins are versatile, multi-use containers built specifically with durability and ease-of-use in mind. These containers are structurally rigid, with extra thick corners made from sturdy HDPE to ensure a long lifespan. Far more portable, lighter, and easier to handle than stainless steel or wood alternatives. With specific benefits to in-plant handling, and over-the-road hauling, reusable food processing bins save money, increase efficiency, and are fully recyclable at end of service life.

Optional Lids Available

SPECS

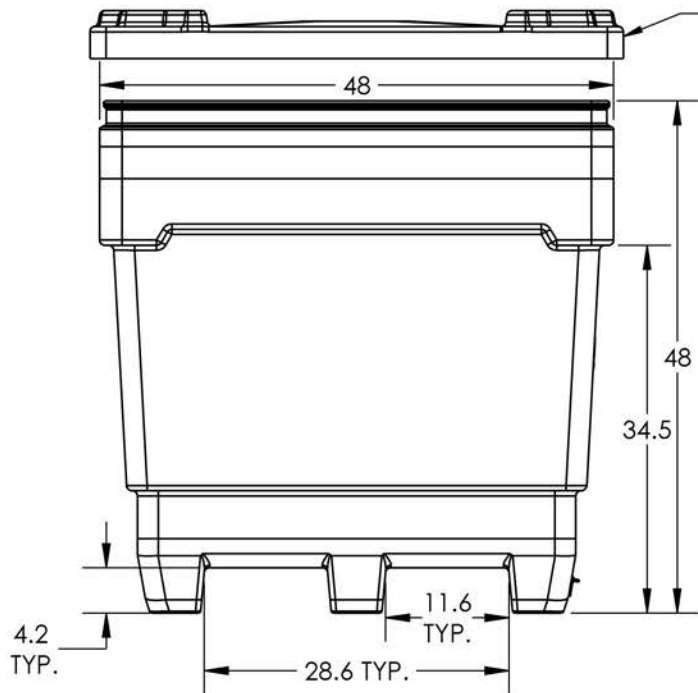

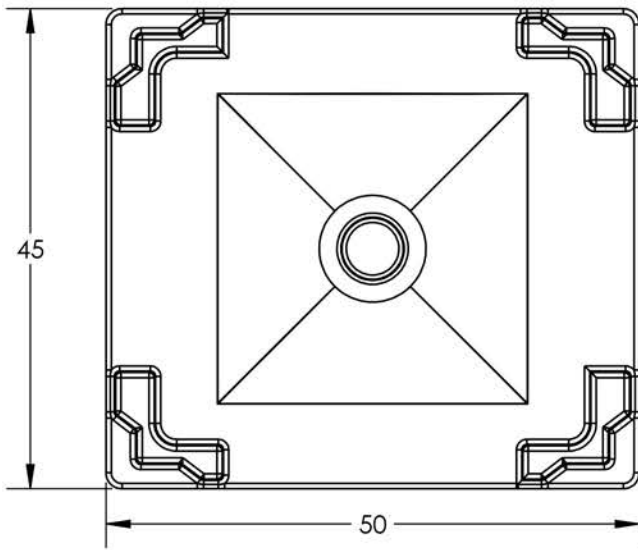

- **APPLICATION:** Safe and secure transport of agricultural items
- **DURABLE:** Extra thick corners and base resists impact and wear
- **FDA GRADE:** Made from food-safe polymers
- **NESTABLE DESIGN:** Empty containers nest inside one another to save storage space
- **STACKABLE:** Containers stack 2-high when used with optional lids
- **REINFORCED PLASTIC:** Top edge adds strength, resists splitting, and ensure long lifespan
- **INCREASED EFFICIENCY:** Costs less than stainless steel and a lighter weight makes them easier to handle
