

# COLLAPSIBLE AGRICULTURAL HARVEST BIN

## REUSABLE TRANSPORT PACKAGING

### USAGE

Collapsible harvest bins are easy to set-up and break down, and are perfect solutions for bulk item harvest and heavy load transport. Ideally suited for agriculture and automotive industries, harvest containers collapse quickly and easily to just over 12 inches. These 48" x 40" x 33" harvest bins have smooth, fully-vented walls which provide an optimal environment for fresh produce wherein damage and waste are significantly reduced.

Made from FDA-approved materials, the nonporous plastic inhibits mold and mildew growth, is ultra durable and can be fully recycled at end of service life.

### SPECS

- **MATERIAL:** Structural Foam Molded, HDPE
- **EFFICIENCY:** 3:2 return ratios for closed loop supply chains
- **APPLICATION:** Agricultural transport, perfect as harvest bins and food processing, components
