

COLLAPSIBLE LIQUID INTERMEDIATE BULK CONTAINER

REUSABLE TRANSPORT PACKAGING

USAGE

Collapsible Intermediate Bulk Containers are the perfect storage and transport solution for large quantities of liquids, powders, resins, gels, and other aggregates that are typically used in industrial complexes, manufacturing plants, and distribution centers. Large carrying capacity, paired with exceptional durability helps cut in-house costs while increasing overall storage and transport efficiency. Ideal for use in commercial industries, industrial manufacturing, automotive industries, and distribution centers among others. Made from durable HDPE plastic, they are reusable, recycle, and highly dependable.

FEATURES & SPECS

- **COLLAPSIBLE DESIGN:** Quickly folds down to a height just under 14"
- **DURABLE CONSTRUCTION:** High quality plastics are rugged, lightweight and built to last
- **EASY CLEANING:** Smooth-wall interiors, keep products protected and are simple to clean
