RACKABLE PLASTIC PALLET

TECHNICAL DATA

Dimensions*¹ 47.2 x 31.5 x 5.9 in 1200 x 800 x 150 mm
Weight*¹ ACM 27.5 lbs | PE 25.5 lbs ACM 12.5 kg | PE 11.5 kg

Load capacities*²

Static 14100 lbs 6400 kg
Dynamic 3500 lbs 1600 kg
Racking 1100 lbs 500 kg

Bottom support 3 snap-on bottom skids
Entry 4-way
Safety rim 0.2 in optional 6 mm optional
Nesting height without skids 1.7 in 44 mm

*¹ The pallet dimensions and weight are variable. *² Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (68°F/20°C). Varying data may result from different conditions of usage. Your specific requirements can be identified upon request. *³ Minimum quantity required. - We reserve the right to change any of the stated information without prior notice.

**Medium-Duty Euro-Size Rackable Plastic Pallet
With 3 Snap-On Runners**

OPTIONS

Material	Color
ACM, recycled material	black
PE, recycled material	black

Individual marking*³
Custom-made color (only virgin material)*³
Separate delivery of skids – volume saving

**Snap-On Runners Enable Racking, Block Stacking,
and Conveyor Compatibility**

FEATURES

- Cost effective
- Light weight and low height
- Easy and safe to handle
- Reduced freight charge by self assembly of snap-on bottom skids, volume saving up to 65%
- Resistant to insects, bacteria and fungi
- Conforms to ISPM 15 regulation
- Environmentally friendly product: 100% recycled plastic version available, completely recyclable

EXPORT PALLETS

Export pallets provide a cost-effective and environmentally friendly solution for companies shipping goods abroad. With global supply chains becoming more interconnected, these pallets offer high value while supporting modern sustainability standards. Made from recycled materials, they feature a lightweight design and competitive pricing—ideal for situations where it doesn't make sense to invest heavily in load carriers for exports.

LOGISTIC PALLETS

Logistic pallets are durable, long-lasting storage platforms proven in high-bay warehouses, automated handling systems, and distribution operations. Their value lies in achieving a high number of cycles, which drives cost efficiency over time. Depending on the application, they can be produced from either recycled or virgin plastic, with recycled material often serving as a cost-effective and sustainable option.
