INSULATED BULK CONTAINER BIN STYLE

REUSABLE TRANSPORT PACKAGING

USAGE

Insulated bulk containers are ideal for the storage and shipment of temperature sensitive products, as needed in food service, grocery distribution, dry ice, dairy, and fishing industries. These insulated containers are designed for durability, reliability, and ensured thermal-regulation. Rotomolded from resilient, FDA approved polyethylene and have a smooth outer shell devoid of joints. Polyurethane foam between walls acts as insulation to ensure products remain frozen. Plastic coolers provide optimal dry ice and pellet shipping and storage and may also be used for retail display applications, such as concessions, catering, vending, etc.

INSULATED CORE: Minimum 2 inches of insulating foam between walls, keeps contents cool, longer

CONTAINER HANDLING: 4-way entry for forklifts and pallet jacks

CUBE UTILIZATION: Smooth, rounded interior corners maximize usage and protect contents

SIMPLE SANITATION: Resistant to soaps, sanitizers, chemicals, sunlight and mold

APPLICATIONS: Temperature regulated seafood and produce storage, transport, and distribution

EFFICIENT STORAGE: Optimal storage solution that allows optimal cold-storage and transport

OPTIONS: Hinged lid, lock and latching system, gasket for lid, drop in foam pad, drainage
