COLLAPSIBLE LIQUID INTERMEDIATE BULK CONTAINER

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

This intermediate bulk container is a rugged, reusable, reliable and customizable option for bulk liquid transport and storage. Rigid plastic construction is both stackable and collapsible, allowing for massive savings in return transport and warehousing. Reduces packaging costs, while allowing more efficient product distribution and access. Multiple container size and customization options match needs up to 300 gallons per IBC, allowing for high yield storage at an affordable price. This IBC liquid bin is perfect for long-term outdoor storage, rail transport, and bulk warehousing, and commercial distribution.

SPECS

- **MATERIAL:** Injection molded, high density polyethylene
- **EFFICIENCY:** 3.3:1 return ratios for closed loop supply chains
- **PERFECT FOR:** Viscous liquids, oils, fruit paste, tomato paste, bulk liquids, commercial transport
