

HANDHELD ATTACHED LID CONTAINER

REUSABLE TRANSPORT PACKAGING

USAGE

Reusable plastic attached lid containers are a versatile, recyclable, and affordable solution to item handling, transport, processing, and storage needs. Plastic attached lid containers protect products during assembly, processing, storage, and distribution. Attached lid containers are an economical, environmentally conscious, and efficient alternative to corrugated boxes or cases and have a much longer lifespan. Available in a large variety of sizes, footprints, and build options to match almost any industry and application.

FEATURES

- **CONVEYOR FRIENDLY:** Textured bottom ensures positive grip on conveyors and during transport
- **APPLICATIONS:** Aftermarket automotive products, retail, distribution, and agriculture
- **SAFE, SECURE STACKING:** Stackable containers allow for optimized transport and storage
- **NESTABLE:** Containers efficiently nest inside themselves when empty for maximized storage
- **AUTOMATION COMPATIBLE:** Works seamlessly with automated systems
- **DURABILITY:** Injection molded HDPE delivers a long lifespan and resists damage
- **EFFICIENCY:** Perfect for split-case picking, shipping, and distribution
