STACK & NEST HANDHELD CONTAINER

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

Plastic stack and nest containers are ideal for order picking, inventory control and short-term storage across a variety of manufacturing, distribution and food processing industries. Easily stack totes when full or nest when empty to maximize floor or truck space. Engineered with fully recyclable plastics, these handheld shipping bins come in a variety of sizing, color and vented or non-vented styles. Perfect for agriculture, agricultural harvesting, berry picking, produce handling, automotive or manufacturing components and retail use.

SPECS

- **MATERIAL:** Injection molded, high density polyethylene
- **STACKABLE:** Containers efficiently stack to optimize storage and transport efficiency.
- **NESTABLE:** Bins nest when empty to massively reduce footprint and cut costs.
- **100% RECYCLABLE:** Reusable plastics can be fully recycled when needed
