

NESTABLE AIRTIGHT CURING BIN

REUSABLE
TRANSPORT PACKAGING

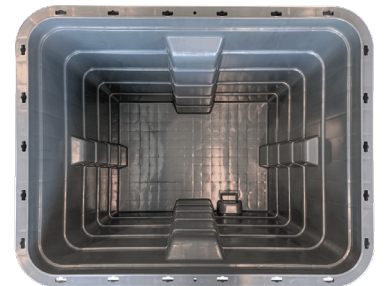

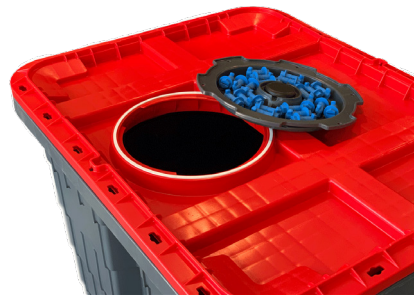

USAGE

This 105-gallon plastic intermediate bulk container (IBC) offers clean, strong, and safe storage of bulk goods for manufacturing, processing, and storage. Food grade for hygienic transport and storage of bulk liquids, oils, pastes, gels, meats, slurries, powders, resins, and more. Cutting-edge container design features unique stacking up to three containers high and nesting capabilities that result in a 6:1 return ratio. This water-tight container features pallet feet, secure seals, a pressure relief valve, a 2" discharge valve, a pin-secured lid, and a screw-on round portal lid. Easy access through the top portal or the bottom discharge valve allows for access even when stacked. Choosing IBCs reduces packaging transport and distribution costs. This multi-tank is a great alternative to drums and single-use containers.

SPECS

- **MATERIAL:** Injection molded, high density polyethylene
- **EFFICIENCY:** 6:1 return ratios for closed loop supply chains
- **CUSTOMIZE:** Latch plugs, valves, color options, liner bags, etc
