NESTABLE PLASTIC PALLET

USAGE

One-way pallets are cost effective and compliant with international standards. One way plastic pallets resist pest infestation, mold, and mildew, eliminating the need for heat treatments or fumigation. Manufactured from high-density polypropylene, one-way pallets guarantee safe and intact shipments. Various industries use one-way pallets for exporting and shipping operations, including the agricultural, industrial, retail, automotive, retail and distribution industries.

SPECS

- **LIGHTWEIGHT:** Weighs only 20 lbs. with an open deck
- **PROTECTS CARGO:** Slip-resistant deck, 9 feet at base, and one-piece construction
- **ERGONOMIC HANDLING:** 4-way access for use with forklifts and pallet jacks
- **NESTABLE:** Plastic import and export pallets nest inside one another, dramatically saving space
- **SUSTAINABLE:** Pallet is 100% recyclable
- **EXPORT READY:** Exempt from EU and IPPC – ISPM 15 regulations
- **OPTIONS:** Runners available for stackable version, molded-in labeling, ID labeling and barcoding
