BY REUSABLE TRANSPORT PACKAGING

RENTALS | POOLING | SERVICE

Our Story

Our Story

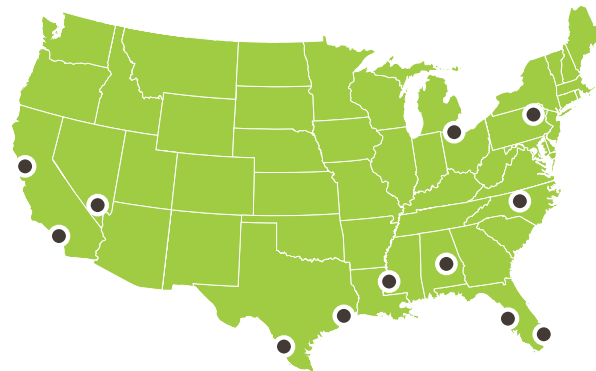

ContainerPAL (Container Pooling and Logistics) is a service division of Reusable Transport Packaging. For more than three decades, we have been providing supply chains with the highest quality reusable packaging and services. We specialize in pooling reusable intermediate bulk containers for the food processing, automotive, retail, and manufacturing industries, offering a true container-sharing, one-way program.

Our Transport Packaging as a Service combines reusable transport packaging (RTP's), tracking technology, and return logistics to offer companies a more sustainable and cost effective transport packaging program. We also offer container management services a la carte so you can pick and choose which services fit your needs. Our services include Short Term and Long Term Rentals, Pooling, Relogistics, Tracking, Cleaning, Warehousing, Repairs, Recycling, as well as Capital and Operating Leases. Our team of experts is eager to help you find the perfect solutions for your operation.

We provide products and services for turnkey reusable transport packaging.

NATIONWIDE SERVICE

We stock, pool, and ship an extensive inventory of reusable containers and plastic pallets. Our distribution centers are located nationwide, so we deliver the pallets and containers you need, quickly and affordably.

SAFETY

ContainerPAL and our providers adhere to strict standards for quality and safety. Our products and services meet or exceed industry guidance:

- CFIA and USDA Compliance
- Certified to ISO 9001 Standards
- Hazard Analysis & Critical Control Points Compliance
- Good Manufacturing Processes Compliance
- Global Food Safety Initiative Compliance
- FDA Model Food Code (Regs 4-602.11 & 4-703.11) Compliance
- Liners Certified: Kosher, Halal, ISO 22000:2005, FSSC 22000 V4.1 - ISO TS 22002 - 4:2013 (Packaging), 21 CFR §§ 174-189, FSSC 22000 requirements

Industries Served

Bringing Economic & Environmental Sustainability to Supply Chains

Since 2008, ContainerPAL has provided packaging rentals and pooling services to industries throughout North America. While each solution is customized, our commitment to quality remains consistent. As more industries move to reusable packaging, we continue to create innovative solutions to meet the unique needs of each client.

We aspire to remain the most trusted partner in the reusable packaging industry.

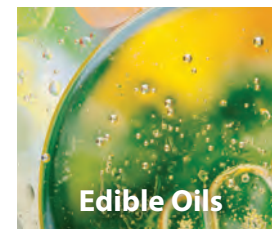

CURRENT INDUSTRIES SERVED INCLUDE:

Agriculture

Seasonings

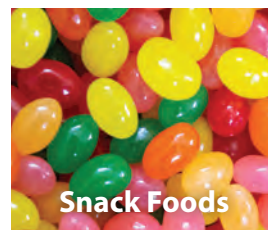

Edible Oils

Sauces

Dairy

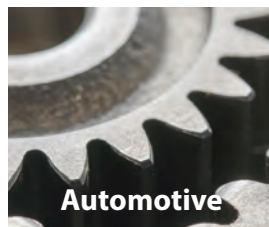

Snack Foods

Plant Proteins

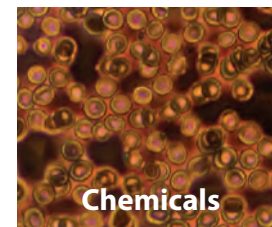

Cosmetics

Automotive

Industrial

Chemicals

Pharmaceuticals

Packaging Pooling

An Introduction to ContainerPAL Pooling

“Pooling” may sound daunting but it is simply the shared use of assets. At ContainerPAL, we use the power of pooling to provide businesses with “ready to use” reusable transport packaging assets, on-demand and at a lower cost than direct purchasing. The assets in our pool include plastic pallets, bulk containers, intermediate bulk containers (IBCs), distribution totes, carts, and more.

ContainerPAL is simply the easiest way to access the best reusable containers and pallets.

Through ContainerPAL, the reusable packaging supply chain has never been more simple or more affordable. Our short and long-term rental agreements, pooling services, one-way trip leases, and capital leases, we take care of ensuring that you have the right containers and pallets, right when and where you need them.

POOLING SAVES ON:

- **Capital Expenses** — Large, upfront investment is eliminated
- **Return Freight** — Our team handles your return freight and logistics
- **Asset Overage** — No need to buy or stock more assets than you need
- **Storage of Unused Assets** — Eliminate waste and disuse in your facilities
- **Service and Maintenance Fees** — Washing, repairs, and other expenses are covered

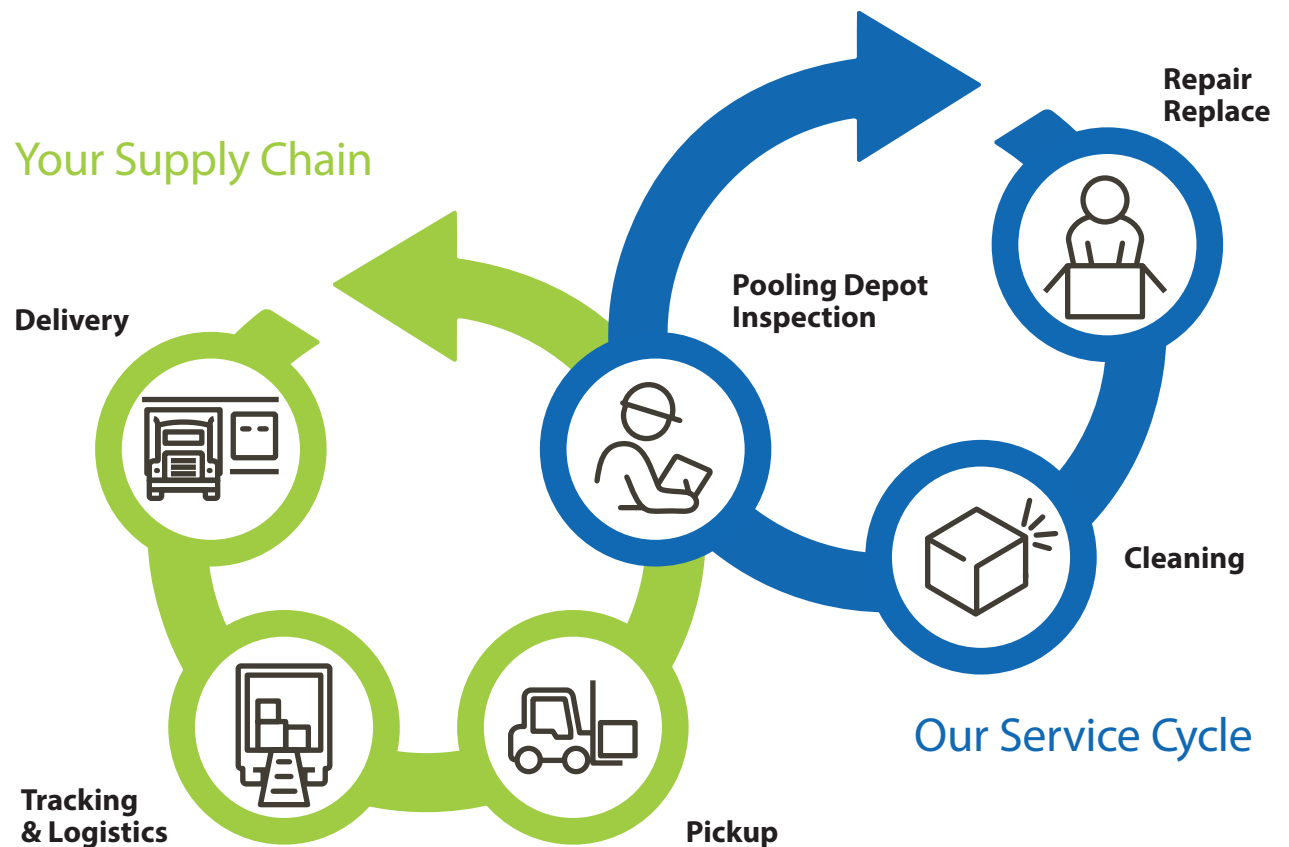

Pooling Cycle

The Pooling Life Cycle

In short: Our assets are delivered, picked up, cleaned, tracked, and maintained by our team — leaving you the freedom to focus on your core business. You get the value of reusable packaging with minimal commitment and investment.

OUR TURNKEY POOLING PROCESS INCLUDES:

- Scheduled delivery of the agreed quantity at the agreed locations
- Automated tracking and tracing of the assets
- Scheduled collection of the agreed quantity at the agreed locations
- Cleaning and inspection of the asset after every collection
- Replacement or repair of broken parts or assets

Solutions

Packaging that Works for You

We offer four models to meet your supply chain needs. Whether your transport need is single-trip, seasonal, longterm, or permanent, we've got you covered. Our rates are based on use, allowing you to get the value of reusable packaging at the most efficient price.

OUR PACKAGING SOLUTIONS:

Trip Lease, 1-Way Use Packaging as a Service

Use Case Examples:

- Pooling
- Inbound/Outbound Ingredients
- B2B Distribution
- Food Processing
- WIP

- Temporary Process Improvements
- Closed Loop Supply Chains
- Facility Relocation
- Bank Builds

Long Term Rental 6+ Months

Use Case Examples:

- Food Processing
- Temporary Storage and Warehousing
- Longterm Manufacturing
- Closed Loop Supply Chains

Purchase

Use Case Examples:

- Consistent Production
- Multi-Year Storage
- Closed Loop Supply Chains
- Quick Return on Investment
- Cost Per Use Justification
- Total Cost of Ownership

Services

Packaging as a Service

ContainerPAL provides full spectrum packaging services. Each service works within the pooling ecosystem to create the most efficient transport packaging solution. The services are also modular, so that solutions can be customized or used a la carte to meet the unique needs of each business.

OUR POOLING SERVICES:

Asset Management

Simple and sophisticated, web-based asset management ensures your supply chain keeps moving.

Tracking

App-based tracking shows where your goods are at each stage of your supply chain.

Relogistics

Let our team handle your freight booking and deliveries with our turnkey logistics services.

Cleaning

Keep your container fleet ready-for-use with our drop-off washing services.

Warehousing

Short or longterm storage options available throughout the United States.

Repair

When accidents happen, our team is ready to fix your reusable packaging containers.

Recycle

When your plastic containers and pallets reach the end of their service, trust us to ensure their recycling.

Capital Leasing

Owning containers and pallets is a great investment. We've got you covered with flexible financing options.

Our Fleet

Packaging for Every Product

Financial Services

Multiple Ways to Invest in Reusable Value

Scale your business on your terms.

Everyone knows the longterm economic value of reusable transport packaging, but many supply chains lack the resources necessary for the upfront investment. For this reason, we offer a number of flexible options. With our low-cost trip leases and short-term rentals, users are able to deploy our packaging pool for a fraction of the cost of ownership. Additionally, we offer the following customizable financial services.

OPERATING LEASE

Features:

- Essentially: A “rental”
- On-demand access to industry-leading containers and pallets
- Lease payments and interest may be tax-deductible
- Risk of ownership borne by ContainerPAL
- Assets are returned at the end of the lease term

CAPITAL LEASE

Features:

- Essentially: “Borrowing money for purchase”
- Specified orders of industry-leading containers and pallets
- Asset depreciation and interest may be tax deductible
- Asset ownership transfers to you upon the completion of the lease term or via bargain purchase option
