

STACK AND NEST FOOD DELIVERY CONTAINER

REUSABLE TRANSPORT PACKAGING

USAGE

This stack and nest container is used in every process of the food delivery industry. A completely streamlined design that can transport and conserve many different types of food in a space-saving way. Different freshness and temperature zones are possible in one container thanks to this innovative delivery tote. This food safe container preserves the quality of the goods during transport with top-of-the-line secure lids and enduring walls.

SPECS

- **ONLINE FOOD DELIVERY READY:** Optimal container height for food delivery, also ideal for upright transit of bottles
- **NESTABLE:** Empty containers can be nested into each other to save space
- **SEPARATORS:** Separating inserts so that nothing slips, tips over or spills. Bottles stand up securely
