HANDHELD ATTACHED LID TOTE DOLLY

REUSABLE
TRANSPORT PACKAGING

USAGE

Plastic attached lid dollies are an industry standard for distribution, transportation, retail, and automotive industries. With reinforced corners, attached lid dollies with casters keep contents safe and secure during all stages of transport. Noted for having exceedingly long lifespans, plastic dollies are a reliable, sturdy and easy to handle item transport solution.

Perfect for split-case picking and shipping, plastic dollies simplify transportation, lower overall transport costs, and increase warehousing efficiency. This 24 x 16 dolly is also available without casters (wheels) for customization.

This extremely rugged dolly for shipping containers features a solid black plastic frame and quality non-marking rubber swivel casters. Use indoors or outdoors with distribution containers

SPECS

Stackable: Stack when empty for reduced footprint

Helps Organize: Perfect for shelving, storage, and item management

100% Recyclable: All plastic design is fully recyclable at end of service life

Easy to Clean: Nonporous materials resist odors and are simple to sanitize
