

ONE WAY STACKABLE, PLASTIC PALLET

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

One way plastic pallets are manufactured from advanced composite material to create a lightweight product that is perfect for safe bulk item handling. One way export pallets are stackable, reducing pallet volume by up to 75% and ensuring cargo remains safe and intact during transport.

Lightweight and easy to clean, open deck plastic pallets offer an environmentally friendly and economically reliable alternative to traditional wooden pallets. This stacking plastic pallet is designed to be an economical solution to your one-way shipping requirements.

SPECS

- **STACKABLE:** Exceptional space savings with nesting vertical storage options
- **NESTABLE:** Conical interlocking bases allow for safe and efficient nesting
- **HIGH LOAD CAPACITY:** Up to 6200 lbs.
