

REUSABLE TRANSPORT PACKAGING

ONE WAY, NESTABLE PLASTIC PALLET

USAGE

One way plastic pallets are manufactured from recycled HDPE material to create a lightweight product that is perfect for safe bulk item handling. One way pallets are stackable, reducing pallet volume by up to 75%, which significantly increases the backhaul load capacity. Lightweight and easy to clean, one way plastic pallets offer an environmentally and economically reliable alternative to wooden pallets.

SPECS

- **NESTABLE:** Conical feet and interlocking bases allow for safe and efficient nesting
- **HIGH LOAD CAPACITIES:** Up to 3,968 lbs.
- **ROUNDED EDGES:** Deflects damage, and reduces chances of punctures to other containers
- **ACCESSIBILITY:** Compatible with fork tines or roller conveyors, depending on model specifications
- **STABLE SUPPORT:** Rugged base endures heavy loads and rough transport
- **100% RECYCLABLE:** Polymers can be fully recycled at end of service life
- **OPTIONS:** Detachable runners, labeling, numbering, hot press, color options, and multiple sizes available
