REUSABLE BULK CONTAINER

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

Reusable sleeve pack containers are durable, lightweight alternatives to one-piece molded plastic bulk containers. Reusable, thermoformed plastic pallets and tops have a ten to fifteen-year life expectancy. Sleeve pack bulk containers have a compact design allowing for maximized cube utilization. These sleeves are made from durable hexacomb corrugated plastic or fiberboard composite, top & bottoms are manufactured from either thermo-molded or injection molded HDPE polyethylene resin. These containers stack 5 to 6 high when full, interlocking feet and lid, allow for secured and unitized stacking.

AVAILABLE IN STANDARD AND CUSTOM HEIGHTS

HDPE base pallets and top caps

Choose from standard or custom sleeve heights

Collapsible & stackable design improves storage efficiency

Locking tabs eliminate the need for banding or stretch wrapping

SPECS

- **MATERIAL:** Injection molded, high impact polypropylene
- **EFFICIENCY:** 4:1 to 5:1 return ratios for closed loop supply chains
- **CUSTOM OPTIONS:** Drop doors, custom heights, rounded sleeve edges, printing, 2-part sleeves
- **COLORS:** Stock colors (slate gray or sky blue) or custom colors available with MOQ
