

RACKABLE ANTI-SLIP PLASTIC PALLET

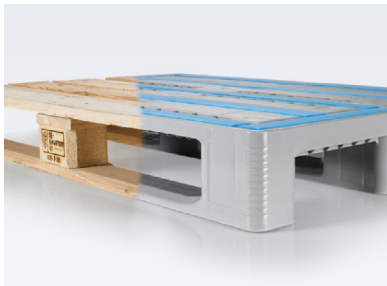

REUSABLE TRANSPORT PACKAGING

USAGE

These new pallets are the ideal solution for all logistics applications. Offered in two versions, a Euro spec version and a GMA spec version with added load capacities of up to 4400 lbs. in high racks. Both pallets are equipped with welded on anti-slip strips on the top deck, which ensures safe loading even when the pallet is in an inclined position. These pallets are also available with optional anti-skid runners, which is ideal for use with roller conveyors and chain conveyors. Made from high-quality HDPE, these tough pallets are designed to have a long service life. Both pallets are also available with optional RFID transponders.

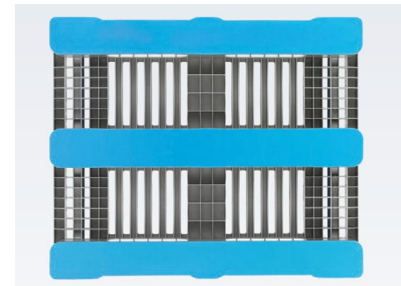

AVAILABLE IN BOTH EURO AND GMA SPEC VERSIONS

Euro height of 150mm is identical to the standard European pallet

Welded anti-skid strips on the top deck for a positive grip.

Anti-slip runners deliver optimal smoothness on conveyors.
