

BAKERY TRAY DOLLY

REUSABLE TRANSPORT PACKAGING

USAGE

These bakery tray dollies are designed to provide an efficient shipping and merchandising solution that works seamlessly with all 29 x 26" bread trays, regardless of the manufacturer. Built from durable, impact-resistant HDPE resin, this bakery tray dolly is designed to withstand the heavy demands of daily bakery operations. Its reinforced structure includes triple support beams along the long span for added strength. The colorfast plastic frame is equipment-friendly, resisting rust and preventing paint chipping, while the caster hardware comes in plated or stainless steel for long-lasting performance. Bakery tray dollies are specifically designed to facilitate mobility of stacked bakery and bread trays. Mounted on swiveling casters, these bakery tray dollies provide a smooth and steady rolling action for stacked trays. These dollies also feature a full perimeter lip to eliminate slippage of the bottom tray while in motion.

FEATURES & SPECS

- **UNIVERSAL DESIGN:** Compatible with all 29 x 26" bread trays
- **DURABILITY:** Made from tough HDPE and mounted onto premium quality casters
- **RIGIDITY:** Designed with corner ribs and anti-sag support beams to evenly distribute loads and reduce stress on the casters
- **INDUSTRY STANDARD:** Meets standard load requirements
- **STACK MOBILITY:** Easily move stacks of bread trays from one location to another
- **CASTER OPTIONS:** Available with either 3" or 4" casters
- **CUSTOMIZABLE:** Barcode, RFID, labels, and sequential numbering available upon request
