

BAKERY TRAY, DOUBLE-LAYER ROLL

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

Reusable handheld plastic food handling containers see widespread application throughout the red meat, poultry, baking, dairy, beverage, food processing, and item transport industries. Plastic crates, trays, and totes reduce costs, drive sustainability, and optimize supply chain efficiency through superior design and application of industry-proven materials. Reusable, recyclable, and available in a wide variety of sizes, these reusable trays are guaranteed to perform in a wide range of bakery, processing, distribution, and retail point-of-sale applications.
