REUSABLE TRANSPORT PACKAGING

NESTABLE RETAIL PALLET

USAGE

This compact pallet is ideal for storage and transportation of goods in retail, warehouse, and distribution applications. Thanks to its smaller footprint, this narrow retail pallet offers excellent handling in confined spaces such as retail backrooms, narrow shopping aisles, and loaded delivery trucks. The compact footprint makes it ideal for transporting smaller quantities of goods for “just in time” inventory models, and for use in retail display areas where space is limited. The pallet also features an anti-slip surface to prevent products from damage, and smooth, ergonomic handles.
