PALLET TOP FRAME

REUSABLE TRANSPORT PACKAGING

RTP

USAGE

Pallet top frames are specifically designed to help secure your pallet loads. Designed with rounded edges to protect the contents of the pallet, these durable top frames provide reinforcement for stretch wrapping and banding, and offer an ergonomic and lightweight solution. Pallet frames also provide a safe base for stacked pallets, reducing damage to stacked loads and helping to evenly distribute the weight.

SPECS

- **PROTECTS CARGO:** Rounded edges reduce damage to cargo
- **IMPROVED RIGIDITY:** Provides a sturdy collar for stretch wrapping and banding
- **BANDING ZONES:** Chamfered edges in strategic locations around the frame for secure banding
- **SECURED STACKING:** Integrated stacking tabs allow top frames to be stacked in a secured manner
- **REVERSIBLE DESIGN:** No defined top and bottom; can be used either way
- **AUTOMATION READY:** Compatible with automated palletizing systems
- **100% RECYCLABLE:** Reusable plastic polymers can be fully recycled
- **ISPM-15 EXEMPT:** No need for costly sanitation and fumigation, cuts costs and labor
