

MEDICAL WASTE CONTAINER - 43 GALLON

REUSABLE TRANSPORT PACKAGING

USAGE

Medical waste containers are designed to safely collect and dispose of hazardous materials in healthcare applications. Typically made from durable, puncture-resistant materials, these containers feature secure, tight-fitting lids to prevent leaks and odors. They come in various sizes, such as this 43 gallon model, and are often color-coded or labeled for clear identification of waste types. The designs include ergonomic handles for easy transport and are compatible with specific liners or collection systems. These containers ensure compliance with regulations and help protect healthcare workers and patients from exposure to harmful waste.

FEATURES

- **PGII RATED:** DOT approved container
- **DURABLE:** Made from tough HDPE material, with drag rails on the base
- **ATTACHED LID:** Features an integrated hinged lid with full access to the interior
- **NESTABLE & STACKABLE:** Maximizes transport and storage efficiencies
- **INTER-STACKABLE:** Stacks securely for transport with 31, 43 and 95 gallon medical waste containers
- **BAG SECURITY:** Integrated holders in the corners help secure the bags in place during use
- **FILL MONITORING:** Semi-transparent locking sub-lid gives a clear view of the fill line
- **SANITATION:** Easy to clean and sanitize
- **SAFETY & ERGONOMICS:** Securely locks for transport and features reinforced handles for safe carrying
- **SECURITY:** A tie location is integrated into the main lid and body
- **CONVENIENCE:** Textured surfaces for easy label removal
- **OPTIONS:** Hot Stamping available for branding, unique bar coding, RFID, color option, and foot pedal operated dolly available
