

RACKABLE PLASTIC PALLET

REUSABLE TRANSPORT PACKAGING

USAGE

These 43 x 43" rackable plastic pallets are durable, lightweight, and engineered for efficient handling and transport. The open-deck design with either a three runners or six-runner base ensures reliable four-way forklift access, while reinforced corners and rounded edges help prevent product damage and extend service life. Made entirely from recycled plastic, these pallets are 100% recyclable and easy to clean, offering a sustainable, hygienic, and cost-effective solution for closed-loop or export applications.

3-RUNNER & 6-RUNNER BASES AVAILABLE

SPECS

- **RACKABLE:** Handles load capacities up to 600 lbs. in edge racking applications
- **STACKABLE:** Vertical stacking options increase storage capability and efficiency
- **EASY TO CLEAN:** Open deck flow-through design resists chemical spills, moisture, mildew and is easy to sanitize
- **IMPACT RESISTANCE:** Designed with reinforced corners and rounded edges for durability in daily use
- **AUTOMATION-READY:** Three-runner and six-runner bases ensure smooth transfers on roller and chain conveyors
- **ERGONOMIC HANDLING:** 4-way entry compatible with forklifts for expedited item transfer
- **OPTIONS:** 0.28" (7mm) safety lip, grommets, IoT, RFID, ID marking, labelling, ESD prevention, and custom colors available
