RACKABLE PLASTIC PALLET

REUSABLE TRANSPORT PACKAGING

USAGE

Rackable plastic pallets provide superior in-house storage capabilities, are lightweight, durable, and are sturdy without the use of nails or staples. Rackable pallets thrive in harsh environments and are far more reliable, and long-lived option than wood or metal alternatives. Will not splinter or warp, eliminates damage from nails or broken wood and reduces the chance of injury. Rackable pallets offer reusable, efficient storage methods for any warehouse, distribution center, or facility that wants to maximize space and save on packaging costs.

SPECS

- **LOAD CAPACITY:** Racking capacity up to 2,800 lbs
- **DYNAMIC LOAD CAPACITY:** Safely transport loads up to 5,000 lbs.
- **PROTECTS CARGO:** Picture frame base with 6 runners ensures even weight distribution on racks
- **MINIMAL MAINTENANCE:** Resists corrosion, insect infestation, chemicals, easy to clean
- **ERGONOMIC HANDLING:** 4-way entry compatible with forklifts and pallet jacks
- **100% RECYCLABLE:** Recycled HDPE construction can be recycled and reused at the end of service
- **OPTIONS:** Reinforcement rods, color choices, labeling, and ID tags available
