

NESTABLE PLASTIC PALLET

REUSABLE TRANSPORT PACKAGING

USAGE

One way plastic pallets are manufactured from advanced composite material to create a lightweight product that is perfect for safe bulk item handling. One way export pallets are stackable, reducing pallet volume by up to 75% and ensuring cargo remains safe and intact during transport.

Lightweight and easy to clean, these nestable, open deck plastic pallets offer an environmentally friendly and economically reliable alternative to traditional wooden pallets. This nesting plastic pallet is designed to be an economical solution to your one-way shipping requirements.

SPECS

- **NESTABLE:** Pallets nest inside one another, saving storage space and maximizing backhauls
- **DURABLE CONSTRUCTION:** Built from rugged and reliable ACM or HDPE
- **HEAVY CAPACITY:** Handles dynamic load up to 2,200 lbs.
