TRANSPORT PACKAGING

RTP

FIXED WALL BULK AGRICULTURAL BIN

USAGE

Reusable agricultural harvest and transport containers create tremendous environmental and economic advantages by conserving materials and resources, reducing waste, as well as lowering packaging costs. Plastic produce bins provide optimal storage conditions and allow faster cooling for produce when compared to metal or wood alternatives. Harvest bins are an industry staple for efficient collection, and transport of agricultural produce, and are exceptionally sturdy. Perfect for agricultural harvesting, food processing, and product transport, distribution, and handling.

FEATURES & SPECS

- **STRUCTURALLY RIGID:** Impact grade polymers ensure long lifespan, durable and reliable
- **EASY SANITATION:** Non-porous surface, won't hold odors or molds, is easy to clean
- **FDA APPROVED:** Constructed from food grade plastics, safe for contact
- **APPLICATIONS:** Agricultural harvest, produce transport, food item distribution
- **LIGHTWEIGHT DESIGN:** Harvest bins are easy to handle, maneuver and transport
- **UV STABILIZED:** UV protected for extended outdoor use and resilience to sun exposure
- **OPTIONS:** RFID tags, labels, foil embossing, center foot, short side or long side runners
