NESTABLE PLASTIC PALLET

USAGE

Nestable plastic pallets offer an efficient solution for material handling across warehouses, distribution centers, and closed-loop supply chains. Their precise dimensions ensure seamless compatibility with high-speed automated systems. When not in use, these pallets nest securely to optimize storage and reduce return freight costs—thanks to conical feet that deliver impressive nesting ratios. Unlike wood, plastic pallets resist rot, splintering, and mildew, resulting in a longer service life with minimal maintenance.

SPECS

- **NESTABLE:** Empty pallets nest inside one another to maximize storage space when empty
- **DURABLE:** Injection-fed compression molded using compatibilized materials delivers excellent impact resistance and longevity
- **EASY MANEUVERABILITY:** Optimal footprint and 4-way entry for efficient trailer loading and warehousing
- **IMPROVED SAFETY:** Lightweight with ergonomic handles to promote safe and secure handling
- **ANTI-SKID DECK:** Textured top deck enhances the coefficient of friction and prevents slippage
- **SUSTAINABLE:** Made from 100% Green Circle Certified post-consumer recycled content
- **100% RECYCLABLE:** Material can be fully recycled and reused at end of service life
- **PRODUCT PROTECTION:** Perimeter lip helps to reduce product damage during transit
- **OPTIONS:** Hot-stamped logos in multiple colors, and RFID available

DIMENSIONS

Model	Dimension (In.)			Material	53' Trailer Qty.	Access / Entry	Weight (Lbs.)		
	L	W	H				Tare	Dynamic	Static
