NESTABLE PLASTIC PALLET

REUSABLE
TRANSPORT PACKAGING

USAGE

Nestable plastic pallets provide a reliable and efficient solution for material handling in warehouses, distribution centers, and closed-loop supply chains. Engineered for repeated use, these 48×40 plastic pallets deliver consistent performance in demanding operational environments. Their precise dimensions and molded construction ensure dependable compatibility with existing material handling equipment and automated systems including conveyors, palletizers, and automated storage and retrieval systems (AS/RS), which helps to reduce interruptions caused by misalignment or handling errors.

SPECS

- **NESTABLE:** Empty pallets nest inside one another to maximize storage space when empty
- **DURABLE:** Injection-fed compression molded using compatibilized materials delivers excellent impact resistance and longevity
- **EASY MANEUVERABILITY:** Optimal footprint and 4-way entry for efficient trailer loading and warehousing
- **IMPROVED SAFETY:** Lightweight with ergonomic handles to promote safe and secure handling
- **ANTI-SKID DECK:** Textured top deck enhances the coefficient of friction and prevents slippage
- **SUSTAINABLE:** Made from 100% Green Circle Certified post-consumer recycled content
- **100% RECYCLABLE:** Material can be fully recycled and reused at end of service life
- **PRODUCT PROTECTION:** Perimeter lip helps to reduce product damage during transit
- **OPTIONS:** Rubber grommets in pallet feet, hot-stamped logos in various colors, and RFID available
