

HANDHELD ATTACHED LID CONTAINER

REUSABLE TRANSPORT PACKAGING

USAGE

Plastic handheld attached lid containers are an industry standard for distribution, transportation, retail, and automotive industries. With reinforced corners and lids, attached lid bins keep contents safe and secure during all stages of transport. Noted for having exceedingly long lifespans, plastic bins are a reliable, sturdy and easy to handle item transport solution. Perfect for split-case picking and shipping, these 28 x 20 x 15 plastic containers lower overall transport costs, save fuel, and increase warehousing efficiency.

FEATURES

- **NESTABLE:** Nesting design dramatically saves space when not in use
- **STACKABLE:** When closed, the totes stack safely and securely for storage and transport
- **IMPROVES ORGANIZATION:** Perfect for shelving, storage and item management
- **TRACTION BOTTOM:** Stays put during transport and works on conveyors
- **PLASTIC HINGES:** Improved safety and recyclability when compared to metal hinges
- **DURABILITY:** High Density polyethylene is both rugged and lightweight
- **EASY TO CLEAN:** Nonporous materials resist odors and are simple to sanitize
