BAKERY TRAY

REUSABLE
TRANSPORT PACKAGING

RTP

USAGE

Plastic bakery trays are designed to safeguard your products while lowering distribution costs and delivering consistent, long-term durability. They support efficient storage, handling, and transport across a wide range of applications. Reusable handheld plastic bakery trays and bread trays see widespread application throughout the baking, red meat, poultry, dairy, beverage, food processing, and item transport industries. Plastic trays, crates, and totes reduce costs, drive sustainability, and optimize supply chain efficiency through superior design and application of industry-proven materials.

FEATURES & SPECS

- **BUILD STYLE:** Vented design helps to maximize thermal regulation
- **FOOD-SAFE:** Made with FDA approved resin and colors
- **STRUCTURALLY RIGID:** High-grade polymers ensure maximum item protection and product lifespan
- **ERGONOMIC DESIGN:** Comfortable and easy to handle
- **CROSS-COMPATIBLE:** Functions seamlessly with existing trays of the same size
- **ECO-FRIENDLY:** Containers are made from 100% eco-friendly polymers that can be recycled
- **VERSATILITY:** Massive selection of sizes and styles available
- **OPTIONS:** Hot stamping, molded-in logos, RFID and barcoding available
