

COLLAPSIBLE LIQUID INTERMEDIATE BULK CONTAINER

REUSABLE
TRANSPORT PACKAGING

USAGE

This high-capacity intermediate bulk container is designed for the safe and efficient handling of liquid and flowable products in food, beverage, pharmaceutical, and industrial applications. Its durable, reinforced construction ensures long-term performance, while the collapsible design reduces return freight costs and optimizes storage space when empty. Featuring a secure locking lid, stackable footprint, and four-way forklift access, it supports streamlined transport and high-density storage. The smooth, easy-to-clean surfaces meet strict hygiene standards, making it a reliable, reusable alternative to single-use packaging.

FEATURES & SPECS

- **IMPROVED SPACE UTILIZATION:** Collapsible design saves space over drums and fixed wall bins
- **DURABLE CONSTRUCTION:** FDA-approved polypropylene sidewalls with steel rod reinforcements for strength and longevity
- **SECURE LOCKING LID:** Steel latch and post interface delivers positive engagement and security
- **LOCKING LID:** Metal latch design with stainless steel posts for positive engagement and durability
- **STACKABLE:** Stacks five containers high when loaded for significant space savings
- **APPLICATIONS:** Ideal for viscous liquids, oils, fruit paste, tomato paste, bulk liquids, commercial transport
- **RAIL SHIPPING:** Certified safe for railroad shipment and delivery, reinforced sidewalls
- **HYGIENIC:** Optional sanitary liners pair with smooth plastics that are easily sanitized
- **OPTIONS:** Color options, sizing options, liner bags, and choice of top or bottom discharge
