

STACKABLE PLASTIC DISPLAY PALLET

REUSABLE
TRANSPORT PACKAGING

USAGE

Stackable plastic retail pallets are specifically designed for retail distribution and point of sale, offering lightweight durability to protect products from transport to display. Features like beveled edges, safety rims, and recessed surfaces improve handling and stability. These stackable plastic retail pallets reduce storage space and costs while enabling floor-ready displays that eliminate extra handling and streamline in-store operations. This pallet features an open deck design and a full cruciform base for optimum stacking stability and compatibility with automated systems.

SPECS

- **DURABILITY:** Manufactured from HDPE using a high-pressure injection molding process that creates superior strength
- **TIGHT TOLERANCES:** The molding process allows for precise dimensions on every pallet, which assures product quality and consistency
- **STRENGTH:** Welded construction delivers additional strength
- **STACKABLE:** Vertical stacking is efficient, safe, and reduces transport costs
- **AUTOMATION READY:** Full picture frame and cruciform bottom ensures the pallet works smoothly with conveying and automated pallet handling equipment
- **SAFE HANDLING:** 4-way entry design allows easy transport and handling
- **OPTIONS:** Perimeter lip, barcoding, labeling, RFID, and up to 35% PCR material available
